

Workshop on
The determinants and impact of recombinant novelty

Université de Lorraine, BETA, Nancy
6 rue des Michottes, 54000 Nancy
October 4th, 2018

Contact : Anne Plunket, Université Paris Sud, RITM, anne.plunket@u-psud.fr and
Marianna Epicoco, Université de Lorraine, BETA, marianna.epicoco@univ-lorraine.fr

Workshop Programme

8:30 - 9:00 - Welcome and introductory address

Session 1. 9:00 - 10:30 - Micro level

Gianluca Carnabuci (ESMT Berlin), *Good for one but bad for most? How intra-organizational networks impact innovative performance at the inventor and firm level*

Anne Plunket (Université Paris Sud), *Gatekeepers, inter-regional networks and technological novelty.*

10:30-11:00 - Coffe Break

Session2. 11:00-12:30 - Micro - Meso level

Francesco Quatraro (University of Torino), *Antecedents of green technologies : micro and meso level perspectives*

Felipe Starosta de Valdemar (Université Paris Sud), *Novelty innovation and technological relatedness (with A. Plunket)*

12:30-14:00 - Lunch

Session3 14:00 - 15:30 - Macro level

Hyejin Youn (Kellogg School of Management, Northwestern University), *Understanding Technology Pathway from U.S. patents : Micro to Macro view*

Marianna Epicoco (Université de Lorraine), *Technological change and productivity growth : an empirical exploration of long-run fluctuations (with A. Plunket)*

15:30-16:00 Conclusion of the workshop
